

# Contextual Inquiry Activity

Group 8

## Research Participant Map

## Affinity Diagram

## Reflection

- What went well?
- What didn't go well?

- What would you do differently if you had to do it again?

Reflection - Luci England

Reflection - Andrew Carlson

- It really worked nicely that we had a wide spread of different people from different age ranges and that the differences in the ways all the people took the assesment was very interesting.
- The Affinity Diagram showed similarities between all the different groups and the information we collected was slightly different which caused each indiviual interview as very distinct more than usual.
- It would be beneficial I feel to have an activity where you also highlight the differences in the information and compare and contrast in some way.

Reflection - Grant Peters

Reflection - Tait Vasa
